

# Saint Louis County Lead Testing Areas

## June 1, 2004

As additional, more accurate data is obtained, Universal Testing areas may change. Updated maps are published each April and are available at:

[www.dhss.mo.gov/ChildhoodLead/index.htm](http://www.dhss.mo.gov/ChildhoodLead/index.htm)

Please note any updates to your service area as it may change your requirements under statute. If a Zip Code crosses jurisdictions, the entire Zip Code requires mandated testing as indicated.

**Universal Testing** - Annual testing for children less than 6 years of age.

**Targeted Testing** - Medicaid children tested at 12 and 24 months. Annual screening questionnaire, testing based upon positive responses.
